Resume Common Mistakes

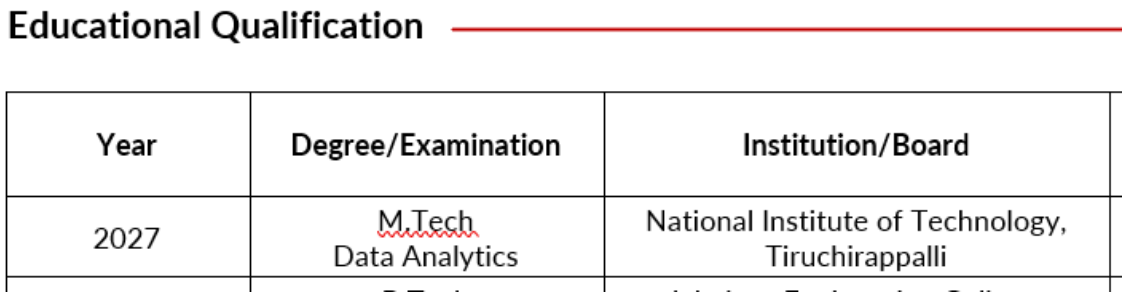

The students who did not submit in the said deadline will not have their resumes checked. Now it is your responsibility to fix the mistakes you committed.

UPDATE 1: Black line at the top should be extended completely to touch the page borders. (ensure no gap is there)

UPDATE 2: replace NIT, Trichy (institution name) with "National Institute of Technology, Tiruchirappalli"

eg :

UPDATE 3: Regarding the * legend: All of you keep it as:

* - Upto 2nd semester

(Font : Arial, font size 10)

1. **Red Line is not proper**

2. **Too much spacing between sections**
   Maintain Uniform Spacing

Areas of Interest

3. **Usage of different fonts:** You have to use the same font throughout.
   Font name : Lato (except the * legend), Font size: 18 (your name), 14 (headings), 11(content)
   And also be careful about where to use the bold and italic.

   Don’t change the format;

Other Projects

- **AI Powered Codebase Assistant:** *May 2026-Jun 2026*
  Developed an AI-powered assistant that analyzes uploaded code repositories using Retrieval-Augmented Generation (RAG). Implemented semantic code search with FAISS and HuggingFace embeddings, enabling natural language queries answered by a local Llama 3.2 model.

- **File Encryption/Decryption App:** *Jan 2026 – Fab 2026*
  Developed a secure desktop application for file encryption and decryption using AES-256 encryption, built with Java Swing and AWT for an interactive GUI featuring drag-and-drop support and real-time progress indication. The application leverages Java Security and Crypto packages to implement AES-256 and password-based encryption (PBE), ensuring strong data protection. Additionally, it supports batch processing for handling multiple files efficiently, making it both user-friendly and robust in safeguarding sensitive information.

- **Summer Internship training at IACS, Kolkata**: *May 2026 - Jul 2026*
  under Dr. Debarshi Kumar Sanyal. Designed and implemented MilvusWebQ which is an offline, LAN-deployable hybrid RAG (Retrieval-Augmented Generation) pipeline. The system integrates BM25 sparse retrieval, dense vector search via Milvus, cross-encoder reranking, and HyDE query expansion, served through a multi-replica FastAPI backend behind a Nginx load balancer, containerized using Docker Compose

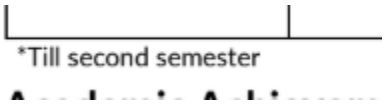

16. First letter in description should be capital. Also, if you are mentioning your guide, bold the letters.

Positions of Responsibility

~Nil~

17. If you didn't had any position of responsibility then exclude it from resume. Don't mention as nil.

18. If you neither have any work experience nor internship experience, then don't mention other projects. Mention as 'Projects'.
19. Specifically to **Bharat Varshney(205125025)** and **Harsh Kumar Modanwal(205125037)**- Highly unprofessional resume
20. 

TIPS:

- **Edit the resume in MS word. (if possible edit the template we have shared with you, it will save lot of time used for formatting)**
- **Enable the Gridlines (view—> gridlines) it will be helpful to you in adjusting the red lines properly.**
- **To fit the image: check the dimensions of the box it will be [1.35" , 1.23"], select your image, go to layout and fill the dimensions. Make sure to uncheck the "lock aspect ratio" option.**
